

SELPA DIRECTORY

Your Gateway to SEL Providers

2024

selproviders.org

SEL PROVIDERS
ASSOCIATION

SELPA DIRECTORY 2024

Your gateway to SEL Providers

Thank you for your interest in the Membership of the SEL Providers Association! This directory showcases the diverse organizations that make up the SEL Providers Association (SELPA). Our members are at the forefront of advancing social and emotional learning across all stages of education, from early childhood to higher education, into adulthood. SELPA membership is open to organizations that conduct research, develop, market, distribute, and shape SEL opportunities, ensuring that educators and learners have access to high-quality resources and support.

Why a Directory?

This directory is a valuable resource for purchasers seeking to explore the range of products and services offered by SELPA members, as well as for those interested in learning more about the innovators and thought leaders driving the SEL field forward.

How to Use this Directory

This Membership Directory is a comprehensive guide designed to assist district and state leaders, SEL service purchasers, and other SEL providers in exploring the services and support offered by SELPA members. Listed alphabetically, each individual entry provides details about the type and model of SEL services available, including whether the approach focuses on curricula, assessments, or professional development, as well as the age ranges each member serves and the geographic regions in which they operate. The second section provides a summary chart of each provider and a check-list of each category to easily and quickly identify the range of services all in one place. We hope this serves as a valuable resource for understanding the diverse options in the SEL field, identifying potential partners, and finding services aligned with local needs and goals for social and emotional learning.

We would like to extend our heartfelt thanks to our generous sponsor and SELPA Member, **The Zones of Regulation**[®], for providing the in-kind design contribution that made this catalog possible. Your support has helped us highlight the incredible work of our members and advance our collective mission. Learn about The Zones at zonesofregulation.com.

Thank you for your continued commitment to the future of social and emotional learning.

American Institutes for Research

air.org

The American Institutes for Research® (AIR) is a nonpartisan, not-for-profit organization that conducts behavioral and social science research and delivers technical assistance to solve some of the most urgent challenges in the U.S. and around the world. AIR's mission is to generate and use rigorous evidence that contributes to a better, more equitable world. In addition to conducting rigorous research on social and emotional learning and related whole child frameworks, AIR has a long history of partnering with state and local systems, program providers, and communities to support the implementation and improvement of SEL policies and initiatives.

Center for Responsive Schools

responsiveclassroom.org
crslearn.org, flyfivesel.org

Responsive Classroom is a highly-regarded student-centered approach to teaching that is implemented in thousands of elementary and middle schools nationally and internationally. Educators prize the effectiveness of Responsive Classroom to bring about “remarkable change” in classroom management and discipline, relationships between teachers and students and increased student engagement.

Fly Five is a top-ranked social-emotional, print and digital curriculum comprised of an array of instructional, student, classroom and home resources for teaching the five social-emotional competencies. Teachers love that the text is matched to the Lexile® Framework and the in-person implementation training and consultation.

Both are backed by research and evidence.

Center for the Promotion of Social and Emotional Learning (CPSEL)

cpsel.org

Center for the Promotion of Social and Emotional Learning (CPSEL) focuses on social and emotional learning (SEL) and addressing trends in education policy, practice and research, and the challenge of integrating SEL into educational settings.

No longer is the school day just about preparing for high stakes testing – SEL has moved to the forefront of the education landscape and educators have an increased awareness that when kids feel safe, have healthy connections with others and can understand and manage emotions, the stage is set, not only for an improvement in academics, but also for changes that impact lifelong success.

Choose To Be Nice

choosetobenice.com

Choose To Be Nice (CTBN) is dedicated to building communities where kindness, compassion, empathy, inclusion, and appreciation for others prevail. We envision a world where kindness is the expected norm and people thrive through meaningful connections with others. Our school programs for PreK–8 are turnkey, fun, and engaging SEL-focused programs that concentrate on and celebrate nine important character traits, including kindness, respect, acceptance, teamwork, honesty, responsibility, friendship, patience, and courage. Schools focus on one trait per month, and all program components are designed to develop and instill these traits in students and staff throughout the school year.

HeartMath Institute

heartmath.org/education/

For over 30+ years, our nonprofit has been serving K-12 schools with our programs and trainings, helping staff and students gain greater resilience and self-regulation. Evidence-based, we specialize in easy-to-use self-regulation techniques that can be used in the moment. Our widely-used classroom-friendly biofeedback technologies help students see in real time how their thoughts and emotions show up on a computer screen. Using a self-regulation technique enables them to change the scores and visual patterns (with the option of playing games) on the screen shot, with an emphasis of using the strategy in real life.

Positive Action

positiveaction.net

Positive Action is an evidence-based SEL and health promotion program designed to address the diverse aspects of well-being—physical, intellectual, social, and emotional—across school, home, and community settings. Our comprehensive PreK-12 curriculum equips educators with practical tools to increase student engagement, reduce absenteeism, and promote academic achievement and personal development. Climate development, counseling, and family tools enhance the program for a coordinated approach. Through our digital platform, Pasela, educators can easily implement lessons and track progress. Professional development and training ensure maximum program impact. Positive Action’s holistic, research-driven approach promotes a positive school culture, combats mental health challenges, and encourages lasting change through collaboration among educators, families, and communities.

Teaching Empathy Institute (TEI)

[Teachingempathyinstitute.org](https://teachingempathyinstitute.org)

TEI creates school communities of wellbeing, emotional safety, and belonging certainty. We help students and the adults who work with them build trusting relationships through flexible, simple, and award-winning strategies that foster dialogue and connection in the classroom and beyond. Our signature “School of Belonging” training program helps create a school culture in which all staff and students feel safe, understood, and listened to. A School of Belonging introduces a set of emotional intelligence competencies and practices to transform schools into places where students and the adults who work with them feel a sense of inclusion, honor and celebration.

Yale Center for Emotional Intelligence

rulerapproach.org

Emotions matter. This belief is the core of our work at YCEI, where we conduct research and offer trainings that support people of all ages in developing emotional intelligence skills. We provide training to educational leaders, teachers, and school staff to support the systemic implementation of SEL (social and emotional learning) and foster those skills in all stakeholders in these communities, including families of students. We test and refine each element of our work, with the goal of leveraging emotions to create healthier and more equitable, innovative, and compassionate communities.

Youth Communication

youthcomm.org

YC provides programming and professional development based on true stories from teens. Our programs enable schools and other youth-serving organizations to create supportive, culturally responsive learning communities. Through the power of true stories, written by youth who have been systemically marginalized, we create more supportive and successful learning communities. YC's vision is to create a more empathic world for and with our young people so they feel represented, heard, and supported to achieve their dreams.
